Eddie Holland  
Town Manager  
Town of North Wilkesboro

**FOR IMMEDIATE RELEASE**

**Town of North Wilkesboro Requests Voluntary Water Conservation in Response to Recent Drought Conditions**

The Town of North Wilkesboro in light of recent drought conditions in our region is requesting customers in its service population to voluntarily conserve water. The service population includes the Town of North Wilkesboro, West Wilkes Water Association, Blue Ridge Water Association, Mulberry Fairplains Water Association, and Broadway Water Association.

The Town is not currently experiencing measures that would invoke the North Wilkesboro Water Shortage Response Plan. We are simply looking to the future for the best interest of North Wilkesboro customers and our neighbors. For future updates as well as to view a copy of the North Wilkesboro Water Shortage Response Plan, please visit [www.north-wilkesboro.com](http://www.north-wilkesboro.com).
